

# Lessons Learnt / Challenges on NDC support from the International Partnership on Mitigation & MRV

**Partnership activities:** Regional and global workshops; Partnership Meetings; Annual Partnership Retreats; Website: [Good Practice Analysis](#); [knowledge products](#) on (I)NDCs

## Challenges identified during INDC development, i.a.:

- Difficulties to assess financial and support needs
- Limited synchronisation between the political & technical process
- Limited availability of information

## Challenges for NDC implementation identified in Partnership workshops, i.a.:

- Access to int. climate finance & mobilising domestic funds (public & private)
- Buy-in of sectorial ministries
- Setting up a holistic transparency system (incl. adapt. & support);

## Recommendations for regional & global support for NDC implementation

- Close coordination & cooperation between programmes/ initiatives that work on the regional and global level
  - E. g. the IKI NDC Support Cluster
- Develop approaches to include stakeholders beyond the environmental ministries,
- Promote peer exchange through interactive dialogue formats and matchmaking of partners sharing similar interest/ challenges
