

# JICA Cooperation with TGO/ CITC

14 November 2016

Side Event @ Japan Pavilion

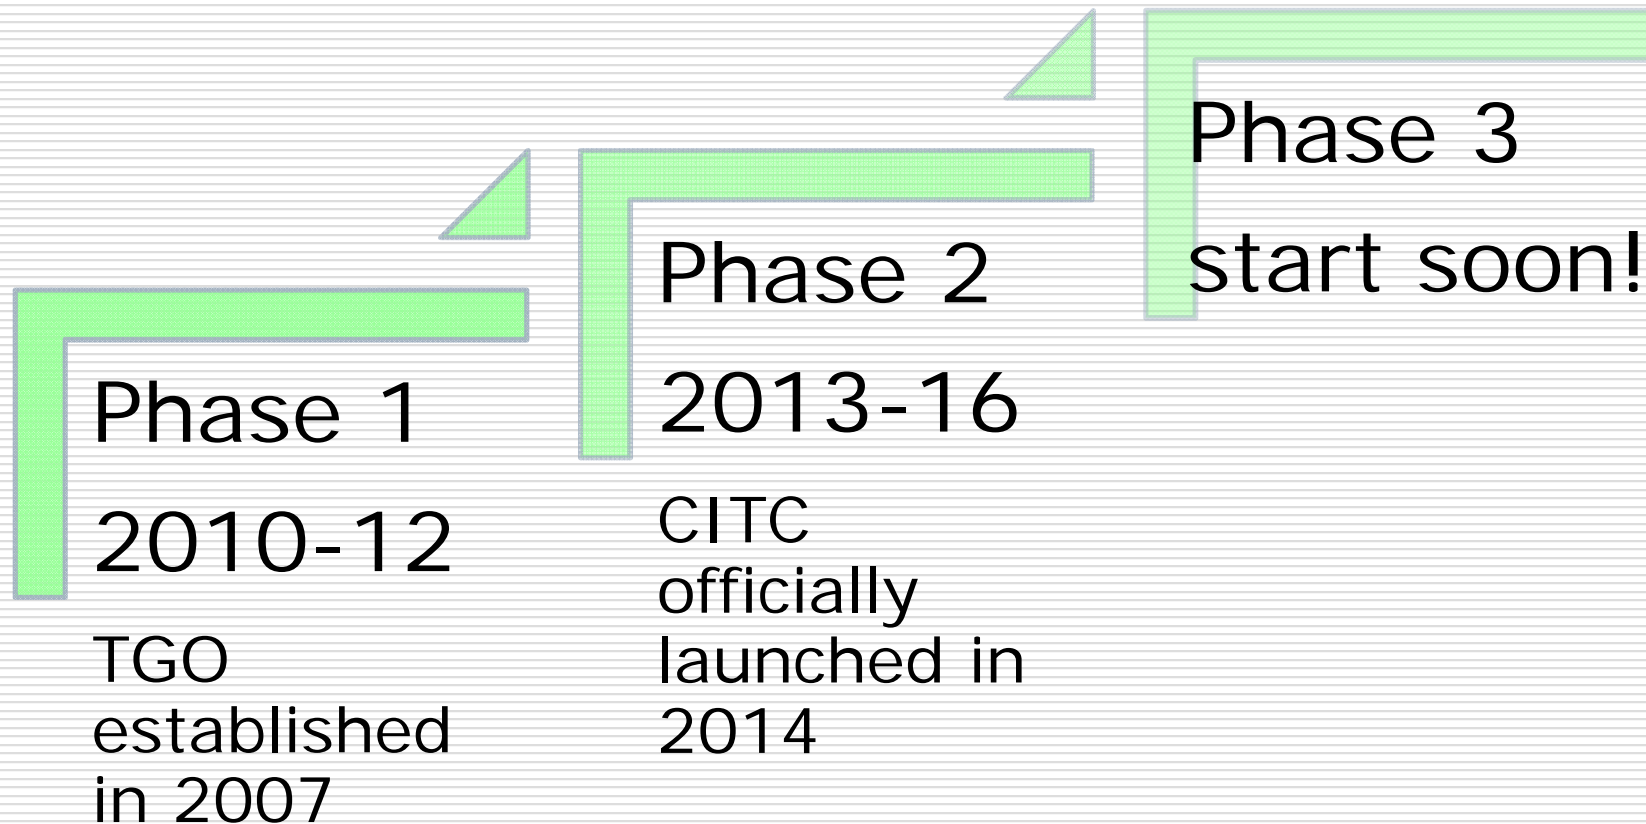

“Climate Change Capacity Building: Roles and  
Challenges of Regional Training Centers”

Masato Kawanishi

Japan International Cooperation Agency  
(JICA)

# Three phases of cooperation with TGO/ CITC

---

# *Capacity Development and Institutional Strengthening for GHG Mitigation (2010-12)*

---

- Capacity development of TGO
  - The level of knowledge and expertise TGO staff on GHG mitigation is enhanced.
  - Capacity of TGO to provide training is enhanced.
  - Capacity of TGO to review and monitor GHG mitigation projects is enhanced.
  - Capacity of TGO to manage information on GHG mitigation is enhanced.

# *Capacity Development on Climate Change Mitigation/Adaptation in the Southeast Asia Region (2013-16)*

---

- CITC was officially launched in 2014.
  - Institutional framework
  - Information management
  - Training needs assessment in the region
  - Training program & curriculum development
  - Identify training resources
  - Build network
- Training started to be provided for the region.

# *Capacity Development to Accelerate Low Carbon and Resilient Society Realization in the Southeast Asia Region*

---

*New!*

- ❑ Project details under discussion.
- ❑ Aspiration for “*one-stop technical & training center of the region*”.
- ❑ CITC’s training courses will be sustained and upgraded.
- ❑ Support climate change actions in the region.

# Lessons learned

---

## □ Challenges

- Evolving and emerging needs
- Common, but also different needs

## □ Strengths & Opportunities

- Strong ownership & commitment to customer satisfaction
- Strong network
- Value of regional cooperation: learning from each other

*Thank you*
