Network Basics

- **Established** in 2014 with initial financial support from Germany and the US
- **Why?** Growing importance of NAP processes, need for coordination & learning
- **Secretariat** IISD
- **Steering Committee:** Countries & donors
- **Management Team:**
- **Participants** from 54 countries

Network's niche

Coordination

NAP processes = massive coordination efforts across sectors, scales of governance, different actors

Often taken for granted, under-resourced. How can we better support coordination?

Learning

Scaling-up and accelerating NAP processes requires learning.

What works? How to avoid potential problems and losing time?

Bilateral support

Bilateral agencies provide 3x more adaptation-related ODA than multilaterals.

How best to align and leverage this support for NAP processes?

Aim & objectives

Enhance national adaptation planning and action in developing countries by...

- **Facilitating peer learning and exchange** on challenges and opportunities national adaptation planning and implementation
- **Supporting national-level action** on NAP development and implementation
- **Enhance bilateral support for adaptation**, ensuring it aligns with developing country priorities
