

The Joint Crediting Mechanism (JCM) contributions towards achievement of the NDCs

Date	9 November 2017
Time	13:00 - 14:30
Venue	Japan Pavilion, Bonn zone

Japan and 17 partner countries are cooperatively developing and implementing the JCM, which is an international market based mechanism in active operation. From the perspective of NDC implementation, what kind of JCM projects should be promoted? The recent progress, achievements and expectations on the implementation of the JCM will be reported and discussed.

Agenda

Facilitator :

Prof. Dr. Kazuhiko Takemoto, President, OECC

Presentation

One of the project participants of the JCM project “Introduction of Amorphous High Efficiency Transformers in Southern and Central Power Grids”.

Presentation covers reasons for joining the JCM, benefits gained through the implementation of JCM project and perspectives for horizontal expansion towards future, which is followed by Q&A.

Mr. Le Van Phu

Deputy head of Technical division, Danang Power Company, Ltd

Panel discussion

Government officials from JCM partner countries and Japan discuss current status, progresses and expectations in implementation of the JCM from the perspectives of efficient and effective achievement of NDCs.
