Twitter: @OECC_Japan

Makoto Kato
General Manager
Overseas Environment Cooperation Center, Japan

Generic Concept

Enhancing companies' transparency actions with incentives

Current activities

Taking actions in two tracks

Multilateral activities

ASEAN member states

Brunei, Cambodia, Indonesia, Lao PDR, Malaysia
Myanmar, Philippines, Singapore, Thailand, Viet Nam

AWGCC

ASEAN Working Group on Climate Change

PaSTI-JAIF project

“Development and Implementation of Facility/Company Level Monitoring, Reporting and Verification (MRV) Systems for Greenhouse Gas (GHG) Emissions in ASEAN Member States (AMS)”

- Study on national actions to understand existing MRV guidelines and tools
- Study on reporting activities in non-state actors
- Technical training in Japan
- Design of pilot project for future actions on MRV development

Bilateral activities

2018: Kick off of the bilateral action with Indonesia

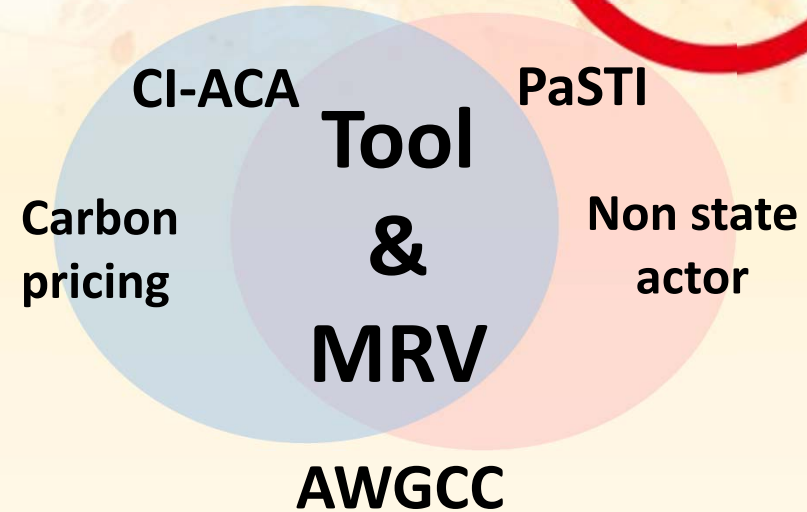

2019: with Philippines and Viet Nam

Under PaSTI, MOEJ supports AMS to enhance transparency activities along with each national development strategy, country’s situation and their needs/capacity.

PaSTI is seeking an opportunity to make a cooperation with other AMS.

Current activities

PaSTI-JAIF (Multilateral)

ASEAN member states

Brunei, Cambodia, Indonesia, Lao PDR,
Malaysia Myanmar, Philippines, Singapore,
Thailand, Viet Nam

AWGCC

ASEAN Working Group on Climate Change

Regional Initiative on

CI-ACA

“Collaborative Instruments for Ambitious
Climate Action”

Phase 1: Capacity Building

**Phase 2: Needs Assessment /
Study MRV**

**Implementation phase
PaSTI-JAIF**

PaSTI-JAIF Project

Phase1: Sept 2019 – (0.5year)

To develop a roadmap by interviews to each country for the next implementation phase

Phase2: 2020 – (2years)

To develop harmonized M&R guideline(s) for ASEAN region and implement pilot project(s) at facility/company level

Project History and future

- Developing facility level MRV

2020-2021

Preparation before practical implementation

2019.9-2020.3

PaSTI-JAIF Phase II (2 years)

For example

- Develop a facility level M&R guideline
- Implement facility level M&R
- Develop necessary M&R procedure, institutional arrangement, tool, templates
- Set up a MRV help desk
- Establish a MRV network
- Help ASEAN MRV activities

PaSTI-JAIF Phase I (0.5 year, 0.3 million USD)

- Country study and survey for Government officials and the interested private sector
- Study tour in Japan
- Design a roadmap to develop a facility level M&R guidelines

2018

CI-ACA Phase II

- Scoping Study on Measurement, Reporting and Verification (MRV) Harmonization
- Country /synthesis report
- Recommendation

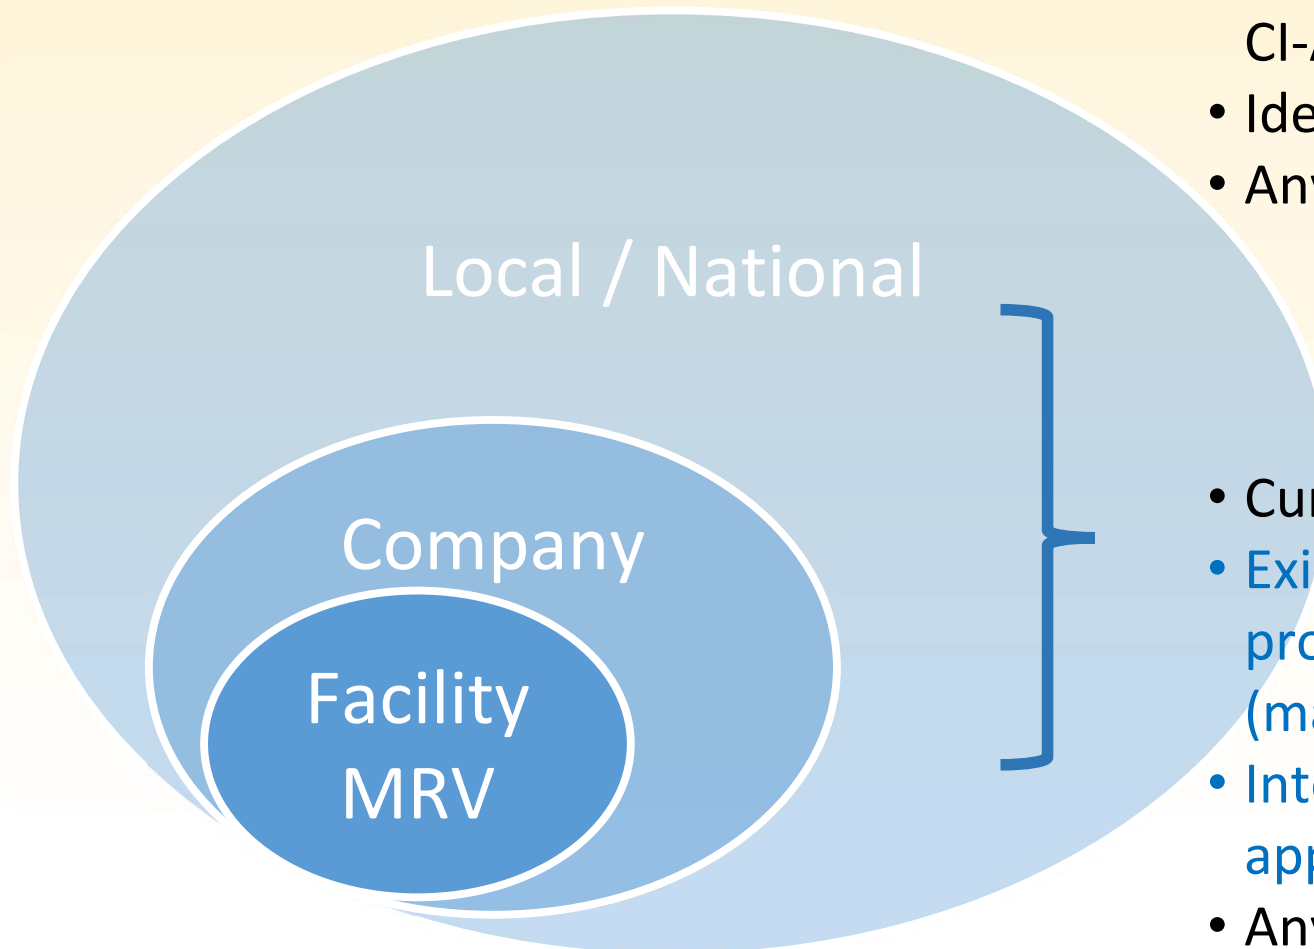

2017

CI-ACA Phase I

Understanding carbon pricing for AMS

Towards implementation

- Filling gaps

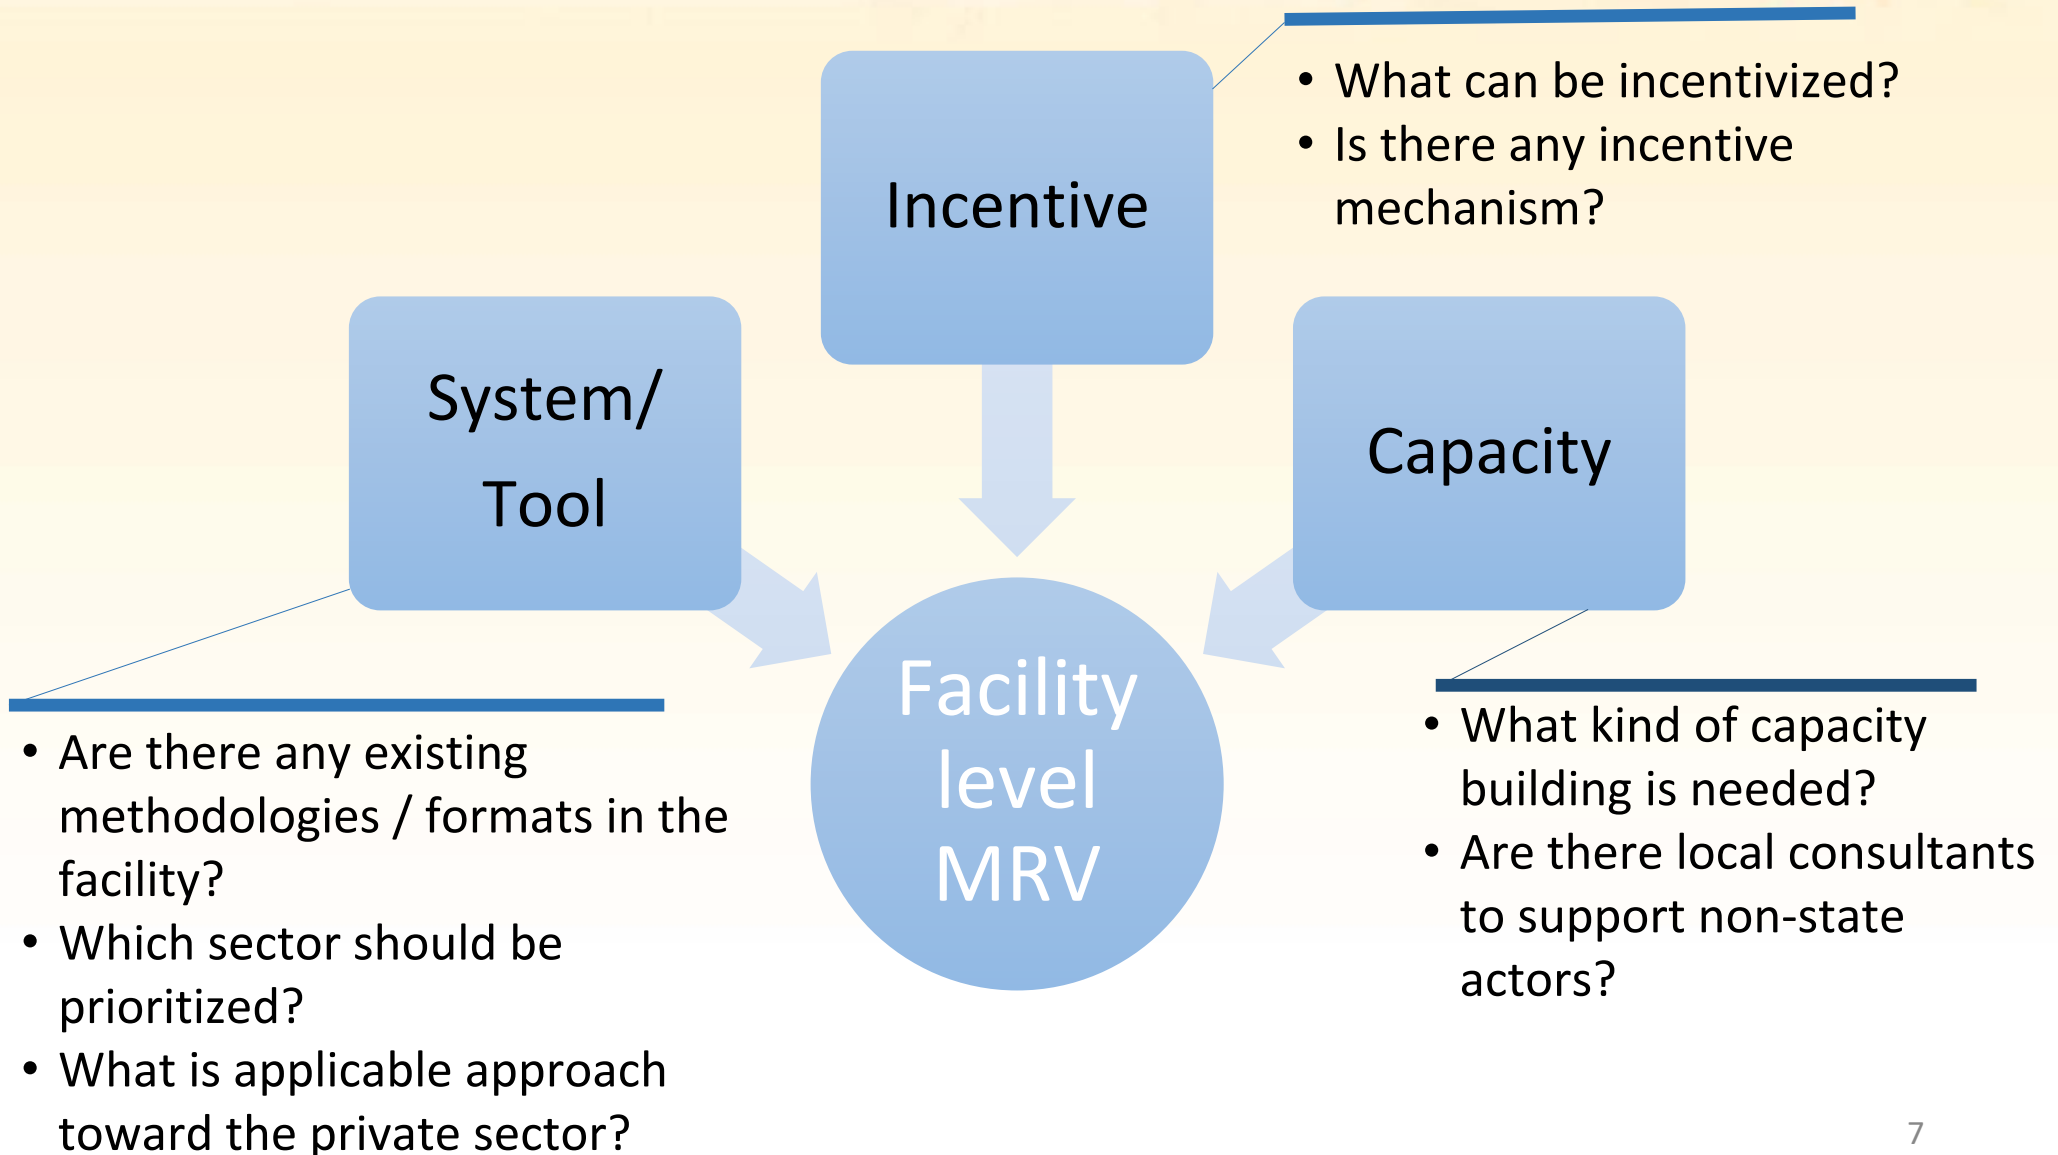

- Building upon knowledge from CI-ACA phase I and II
- Identified interested sectors
- Any gaps and concerns

Filling gaps between government and the private sector

- Current activities
- Existing facility level M&R procedure/guideline (mandatory/voluntary)
- Interest of private sector to apply regional M&R guideline
- Any incentives
- Any gaps and concerns

Towards implementation - things to know

Thank you
