

# 環境インフラ海外展開プラットフォーム

## Japan Platform for Redesign: Sustainable Infrastructure (JPRSI)

### 環境インフラ海外展開プラットフォームとは

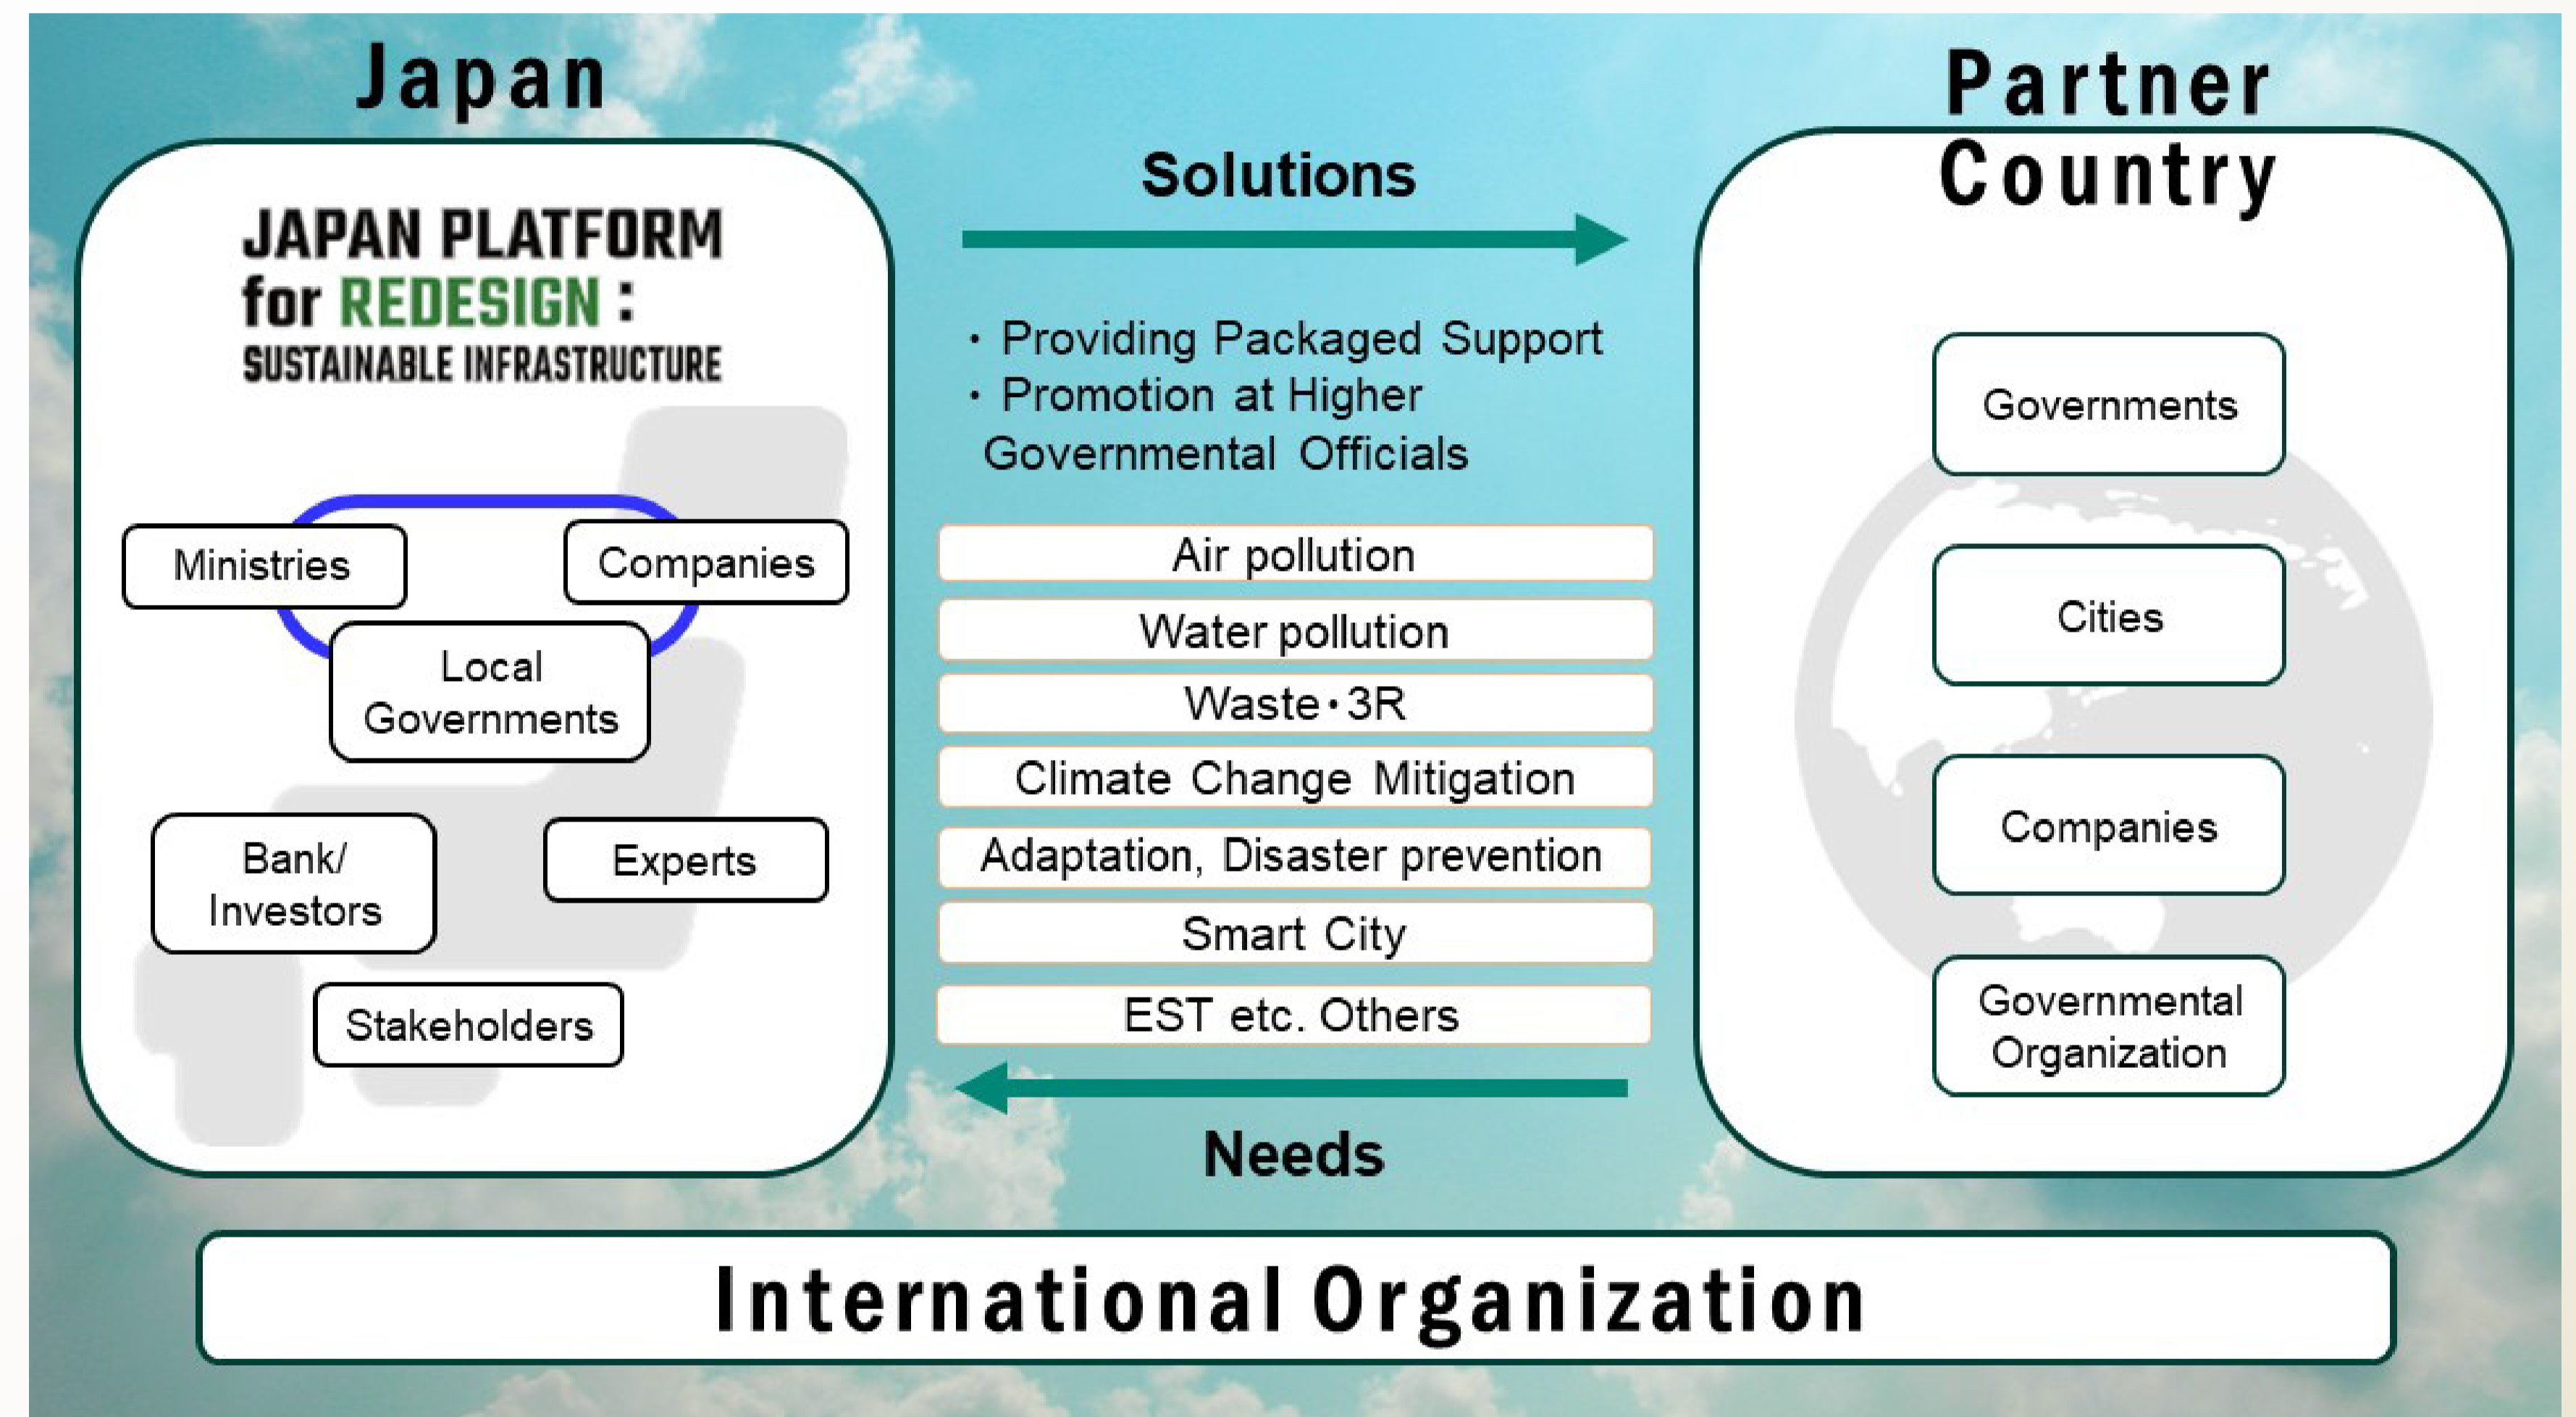

「環境インフラ海外展開プラットフォーム」は、民間企業の更なる海外展開を後押しするべく、環境インフラの海外展開に積極的に取り組む民間企業や各関係者の活動を支援するプラットフォームとして、2020年に環境省により設立されました。

### What is JPRSI

The Japan Platform for Redesign: Sustainable Infrastructure (JPRSI) was established by Ministry of the Environment, Japan in 2020 to support Japanese private companies and key stakeholders who are actively engaged in environmental infrastructure business overseas, with a view to expand and enhance business presences in market of developing countries for Japanese private companies and key stakeholders.

本プラットフォームでは相手国ニーズ等の現地情報を集積することで各関係者がリーチしにくい情報へのアクセス支援を行うとともに、関係者間のコーディネーション及びビジネスマッチング機会を創出し、相手ニーズを踏まえた案件形成から設備導入に至るプロセスを効率的・効果的に進め、自律的な民間企業プロジェクトの創出を加速させます。また、分野横断的かつ複雑な相手ニーズにも対応した案件形成が可能となるようにサポートを行います。

The JPRSI accelerate a development process of self-sustained overseas business project for the JPRSI members through sharing the on-site information such as the needs of partner countries that is difficult for the JPRSI members to access, and making a coordination with relevant parties and offering a business matching opportunity to the JPRSI members as well as supporting a series of the business phases ranging from project design according to the needs of the counterpart to deployment of environmental infrastructure on the ground in effective and efficient manner. Further, the JPRSI offers a solution to meet the cross-disciplinary and complex needs of the partner countries in order for the JPRSI members to formulate their projects.
